PROFESSIONAL SUMMARY

Analyst at Cognizant with around one year of experience in ITSM operations and CMDB management on the ServiceNow platform within a large enterprise environment. Strong programming foundation in JavaScript, Python, and SQL, backed by a BCA (CGPA 9.52/10), an in-progress MCA, and full-stack development projects. Currently transitioning into ServiceNow development — pursuing the ServiceNow Certified System Administrator (CSA) certification and building hands-on solutions on a Personal Developer Instance (PDI). Seeking an entry-level ServiceNow Developer role to apply platform experience alongside scripting and application-development skills.

SKILLS

ServiceNow Platform: ITSM (Incident, Problem, Change & Request Management), CMDB & Configuration Management, ServiceNow Administration (UI Policies, Data Policies, Update Sets, ACLs), Flow Designer, Business Rules & Client Scripts, Personal Developer Instance (PDI)

Programming & Scripting: JavaScript, Python, SQL, PL/SQL, Java, C, C++, Object-Oriented Programming (OOP)

Enterprise Tools & Platforms: AppDynamics, Microsoft Azure, Salesforce, Control-M, Informatica, Oracle Database

Web & Databases: HTML, CSS, Flask, MySQL, RDBMS

Operating Systems: Linux, Unix

Soft Skills: Leadership, Team Collaboration, Problem-Solving, Stakeholder Communication, Requirement Analysis

PROFESSIONAL EXPERIENCE

Analyst | Cognizant Technology Solutions

Aug 2025 – Present

[Your work location] • IT Service Management (ITSM) — Operations & CMDB

- Support enterprise IT operations on the ServiceNow ITSM platform, managing the incident, problem, change, and request management lifecycle to maintain service quality and meet SLAs.
- Maintain and update the Configuration Management Database (CMDB), ensuring the accuracy and integrity of configuration items (CIs) and their relationships across the IT environment.
- Monitor and operate a suite of enterprise tools — AppDynamics (application performance monitoring), Microsoft Azure, Salesforce, Control-M (batch job scheduling), and Informatica (data integration) — to ensure production stability and rapid issue resolution.
- Analyze operational data and prepare reports in Excel to track [ticket trends / SLA compliance / system health], enabling data-driven decisions for the team.
- [Optional: add a metric-driven achievement, e.g., “Reduced average incident resolution time by X%” or “Managed ~X configuration items across Y applications.”]

Intern | Cognizant Technology Solutions

Jun 2025 – Aug 2025

Bangalore, India • On-site

- Completed intensive onsite training covering SQL/PL-SQL, Oracle, Linux/Unix, ITSM processes, and the ServiceNow platform, building a strong foundation for enterprise operations.
- [Optional: add any hands-on task or mini-project you worked on during the internship.]

Full Stack Developer Intern | ASORG Softtech India Pvt. Ltd.

Oct 2023 – Nov 2023

Shirpur, Maharashtra • On-site

- Designed and developed dynamic, responsive websites using HTML, CSS, JavaScript, and Python.
- Collaborated with a team of 4 developers to deliver tasks on schedule while maintaining high-quality output.

PROJECTS

ServiceNow — Personal Developer Instance (PDI) Practice

2026

ServiceNow • [replace with the tech/modules you actually used]

- [FILL IN — describe what you have built on your PDI, e.g., “Built a custom scoped application implementing catalog items, Flow Designer flows, Business Rules, and UI Policies to automate a sample request-and-approval workflow.” This is the single most valuable entry for a Developer role — add a real one as you progress through your course.]

Smart Summarize | Python, Streamlit, Google API

Sep 2024 – Oct 2024

- Built an AI application using Streamlit offering YouTube video summarization, PDF summarization, Chat-to-PDF, and a PPT maker.

Real Estate Management System | HTML, CSS, JavaScript, PHP, MySQL

Nov 2024 – Dec 2024

- Developed a web application allowing users to buy, sell, or rent properties, including an installment calculator that computes payment schedules based on duration and interest percentage.

Tech Content Platform | HTML, CSS, JavaScript, Flask

Jun 2024 – Jul 2024

- Designed a modern, responsive website using Flask to deliver technology-related content.

EDUCATION
